## Five Year Terms For Two Youths

Philip McIntyre and James Booker Sentenced For Criminal Attack On North Grimsby Farmer.

Two seventeen-year-old boys who clubbed a 66-year-old North Grimsby township farmer with intent to rob him on April 16 were each sentenced to five years in Kingston penitentiary by Magistrate J. H. Campbell in St. Catharines court on Tuesday.

The youths, James Booker, aged 17, 472 McNab St., Hamilton, and Philip McIntyre, aged 17, North Grimsby township, admitted the attack on Harold S. Brailford.

McIntyre also pleaded guilty to theft of \$85 from Brailford on April 6. A companion in the second charge is Robert Grobb, aged 20, of North Grimsby township, who will appear in court April 30.

Booker and McIntyre sat nonchalantly in the prisoners' box as Crown Attorney E. H. Lancaster, K.C., outlined to the court the actions of the youths culminating in the attack on Brailford with a club. The man's head was gashed and five stitches were required to close the wound.

Asked if he had anything to say, Booker smiled and said he had pleaded guilty to the charge. McIntyre appeared to smile and said he had nothing to say. The magistrate then imposed sentence.

Provincial Constables "Bill" Gillings and Teddy Hope had charge of the investigation.

## REPORT OF WEST LINCOLN MEMORIAL HOSPITAL

Three Interior Views  
Of The West Lincoln  
Memorial Hospital.

The following Third Annual Report of West Lincoln Memorial hospital, as of December 31st, 1945, has been sent out by Mr. A. R. Globe, President of the Hospital Board:-

### The Members, WEST LINCOLN MEMORIAL HOSPITAL

Please be advised that the Third Annual Meeting of our Hospital Members will be held in the Masonic Hall, Grimsby, on April 29th, 1946, at 8.00 p.m. for the purpose of receiving Directors' and Audit-

ors' Reports, to elect five Directors, appoint Auditors and to transact any other business that may be properly brought before the Meeting.

All persons who have donated \$2.00 or more to the Hospital, during the past year, together with Foundation Life Members, are eligible to attend and take full part in the Meeting.

Building operations were completed and equipment assembled at the end of 1945 to an extent to permit the first patients to be admitted on January 7th, 1946, since which time, the task of com-

## WOULD CREATE WHOLE COUNTY INTO HIGH SCHOOL DISTRICT

### It Is Possible To Beat Cancer

Other Dangerous Diseases Have Been Controlled By Toxoid Treatment, Unknown 30 Years Ago.

Following is a portion of an interesting address given recently by Dr. MacDonald, Mayor of St. Catharines, in connection with the Cancer Campaign.

When I graduated in medicine and took up practice the four most dreaded diseases were typhoid fever, diphtheria, tuberculosis and cancer. If I did not have at least 25 to 30 cases of typhoid during the summer and fall season I thought my practice was slipping. Today as a result of research, typhoid fever is practically a thing of the past. In the last nine years I have seen but one case.

Diphtheria is in the same category. Thirty years ago this disease was rampant, especially in epidemic form. Today as a result of research toxoid has been developed and this immunizing treatment has practically eliminated diphtheria. The last case in this district was in 1937.

Tuberculosis is now fast approaching the same category. Today tuberculosis, except in its last

stages, is a thing of the past.

Rural Pupils In Ontario Have Never Had The Chance At A Technical Training As City Pupils—Farmers Are Sick And Tired Trying To Get Their Children To High School.

Wednesday was education day at the closing session of the Lincoln County Council for April in St. Catharines. At the afternoon sitting the council played host to school officials from the county and to members of the county boards of education when the gathering was addressed by Stanley D. Rendall, inspector of the Ontario department of education.

Warden Robert M. Johnston of Lincoln extended a warm welcome to the large gathering which filled the council chambers to overflowing. Board members were present with school principals from St. Catharines, Merriton, Grimsby, Beamsville, Smithville and Niagara-on-the-Lake.

Speaking on the question of setting up Lincoln County as a high school district, Mr. Rendall pointed out that in the past rural pupils in Ontario have never had the same chance at a technical training as city pupils. "It is all right to say," he continued, "that there has been equality of opportunity in education, it has never been true. Cities have been able to set up technical schools while the smaller municipalities have not."

## ROADS STILL VITAL QUESTION AT COUNTY COUNCIL MEETING

### New Manager At Portrait Studio

Mr. Thomas Will Devote His Time To Brantford Studio—Mr. Alex Whyte In Charge Of Grimsby.

Mr. Theon Thomas, owner of the Thomas Studio of Portraiture of Grimsby, has recently purchased the Walker Studio in Brantford and will devote all his time to operating his new business in the Telephone City.

The Grimsby studio will henceforth be managed by Mr. Alex Whyte, a resident of Grimsby Beach, who was for many years the most outstanding photographer in St. Catharines and well known throughout the whole Niagara Peninsula for his portrait work.

Mr. Whyte will have charge of the lighting clinic at the convention of the Ontario Society of Photographers in Toronto on April 28th and 30th, after which he will take over his duties at the Grimsby studio.

Mr. Thomas is still retaining his business block on Main street and his home on Elm street and will continue to reside in Grimsby.

### Receives Letters

Mayor Bull is in receipt of a large number of replies from servicemen, in answer to the invitation sent out for the Civic banquet on Wednesday night last. The replies are from men who were unable to be present at the big affair. Some of the men being still in the services.

Replies were received from Welland, North Bay, Halifax, Moncton, N.B., Ituna, Sask., Bedford, N.S., Montreal, Toronto, and many other points clear across Canada. All told he received nearly 200 replies of regrets.

### Three Car Crash

Only accident over the week-end in this district, provincial police reported, was a three-car sideswipe crash on No. 5 highway late Saturday night. Three persons were injured.

Robert Blaine, Grimsby, suffered possible fractured ribs, and his wife sustained a laceration to the head. Pentland Book, of Beamsville, was injured by Dr. Harold Latham for injury to the left ankle. Mr. and Mrs. Blaine were attended by Dr. W. E. Hurlbert.

Provincial Constable E. G. Hope said that the cars involved, damaged to extent of \$700, were driven by Robert Blaine, Grimsby, John Hodges, Beamsville, and Warren Lay, Beamsville.

Question Of Legality Of Adding More Roads To County System In 1947-48 Arises—Will Forward Amended By-law To Department Of Highways.

As the second day of sittings of the Lincoln County Council, the question of additions to the county road system came up again for discussion.

Last month, council gave approval to recommendations from a special committee to deal with road extension appointed by Warden Robert M. Johnston. Certain difficulties regarding the legality of the bylaw authorizing the addition to roads over a period of the next two years were advanced by Solicitor H. Rogers who suggested instead that a resolution be forwarded to the Department of Highways setting out what the council proposed to do in regard to the road additions.

Reeve W. E. Henslip of Gainsborough and Reeve L. R. Lymburner of Caistor expressed themselves in favor of taking a chance on the legality of the bylaw rather than the resolution. The majority of the council were of the opinion that the highway department would look with more favor on a bylaw than on a resolution which would be good for one year only.

The question of criticism regarding the proposed additions, especially in regard to the road additions.

### Blossoms Poppin'

Within a few days—probably by the end of this week—the Niagara peninsula will blossom forth in all its springtime glory. While there is no mass showing of fruit blossoms as yet, sweet cherries are already making a lovely showing in some orchards. Sour cherries and peaches, which combine for the mass display, are showing a lot of colour and with a few warm days will be out full. Present indications point to practically all varieties of fruit blossoms being out at the same time.

Before you go to bed on Sunday night remember to set your clock and watch ahead one hour. Daylight Saving Time comes into effect in Grimsby at midnight Sunday night.

### LENO COVERED?

LONDON, April 11.—The first English peaches of the season were on sale today in West End shops at the equivalent of \$5 each. The cheapest varieties were \$3.50.

## Local Butchers Feel Shortage

Were Able To Meet All Customer Demands For Easter—Still Getting Reduced Supplies.

The acute meat shortage in the big cities is now beginning to be felt in the smaller cities and towns.

Grimsby butchers are feeling the shortage to some extent, although the situation has not yet become very serious. For the Easter week-end the local retailers were able to meet all demands, and so far this week have been able to get a considerable quantity of supplies.

One local butcher was completely cleaned out of fresh meat at 10 o'clock on Saturday morning, but his regular customers had practically all been looked after.

The other two stores managed to get through until closing time without disappointing anyone.

To date there has been no shortage at all in cooked meats and smoked meats have been about as usual. There has been no shortage so far in chickens.

## Get Salvage Out For Next Drive

It is housecleaning time in the Fruit Belt and George Warner, Chairman of the Salvage Committee of the Canadian Legion draws attention to the fact that the Legion will hold another salvage drive on Saturday, May 18th.

Residents are asked to save all their old bottles, car batteries, iron stoves, bones, old clothing, old iron beds, old mattresses, brass, copper, zinc, newspapers, cardboard, old iron, rags, in fact all kinds of scrap material.

Please tie your newspapers and magazines in bundles. On the morning of May 18th set your scrap at curbside or roadside and the Legion trucks will pick it up.

## County Council Is Getting Speedy

Only Take 30 Minutes To Clean Up Routine Matters At Opening Of April Session.

Warden Robert Johnston of Lincoln County opened the April sessions of the council last Tuesday morning in St. Catharines shortly after 10 o'clock and within a half hour the assembled members had disposed of routine business and commenced committee work.

The council was informed by letter that the proposed expenditure of \$234,000 for 1946 on the County roads had been approved by the Ontario Department of Highways.

W. A. Marshall, Public School Inspector, requested that the council continue its payment of a special library grant of twenty-five per cent of approved expenditures this year. Although county grants were discontinued, Mr. Marshall informed the members that their action has had a stimulating effect on the purchase of books for the schools in the county.

The Lincoln County Federation of Agriculture notified the county council that the Federation supported the formation of an agriculture committee in Lincoln County.

Following the reading of the communications by Clerk W. H. Millward, the council adjourned to deal with road committee matters.

## Apple Crop Will Be Normal One

SIMCOE, April 16.—Bruce M. Wallace, manager of the Norfolk Fruit Growers' Association, said yesterday a normal crop of apples is expected from district orchards this season but warned there still is danger from frost.

He said "nothing much" is expected from orchards which were defoliated last year by adverse weather conditions.

## Dutch People Are Appreciative

Clothing Sent Overseas By Grimsby Citizens Very Gratefully Received—First Letters Are Received.

Last Autumn Mr. and Mrs. Mike Sweet, Fairview Ave., contributed to the Grimsby Clothing Drive, placing notes in the articles they gave. Recently they received the two letters following.

The one letter from the little boy was written in English. The other letter was written in Dutch and Mr. Sweet had Mr. John Vooges, a native Hollander, translate it for him. We print both letters as written without any editing at all.

I write back for the little note which was sitting in a pocket of the coat which you gave. My mother found it.

I am on a higher grade school, and also I could write back. I hope that you will answer this letter, for it is very interesting to have a correspondence with a strange country. My teacher thought Grimsby was a little town, and therefore I wrote back, but if it was a large town I would have written more.

(Continued on page 6)

## Make Grants To Three Hospitals

West Lincoln Gets \$1,500 From County—New Road Machinery Will Be Purchased.

At the opening sessions of the Lincoln County Council in St. Catharines Tuesday under the chairmanship of Warden Robert M. Johnston of Port Dalhousie, the council expressed the opinion that they were in favor of the setting up of a Victorian Order of Nurses branch throughout Lincoln County but declined to accept financial responsibility.

The proposal to set up a county branch was made last December when Miss Ferguson of the V.O.N., Ottawa, presented the idea to the council and also commenced a speaking tour of the county to sound out public opinion. At that time Reeve Cecil Secord of Grant-Ham was nominated chairman of a committee to deal with the matter which has been under discussion by the council ever since. The proposed branch for the county was something in the nature of an experiment since it has never been attempted before by the V.O.N., which has restricted itself fairly well to cities and towns.

Tuesday Miss Ferguson and Miss E. Smellie of Ottawa interviewed

### DO YOU DO IT?

A small town is the one where a native throws paper or any kind of rubbish into the street.

## FACTS & FANCIES

Frank Fairborn, Jr.

### A GOOD CAUSE

The Children's Aid Society of St. Catharines and Lincoln county is making a drive for \$4,000. This money is to supplement the work which government grants do not cover, the care of hundreds of tots in manifold ways who are not officially made wards of the society. That covers a lot of ground, medically, socially and in other respects. Children are maintained in the home only at very considerable effort. One half of the world does not know how the other half lives. But the social workers engaged in better care for children constantly run up against appalling conditions. They need some public assistance in their volunteer work, and \$4,000 is the objective sought. It should not be denied.

### LOTS OF BEEF, BUT?

If Toronto reports are to be accepted at face value, there may soon be seven meatless, or beefless, days in this area, a great surge of vegetarianism all round.

The packers have a wholesale ceiling price imposed on them and they cannot buy beef on the hoof and process it for distribution among retailers without loss, when the producer of the hoof has to be paid at current levels. Thereby, the packers are knocking the price per head of cattle down by \$10 to \$15. Thereby, too, the producer won't ship at the knockdown price. He will probably claim a loss, too, if he does.

Thus, there is lots of beef on the hoof, but little or none on the platter. In this country, there is a favorable food situation but for some reason or other, there is inefficiency in handling it so that people can have their steak or roast, even on ration points. How the controllers and the bureaucrats would handle an actual famine is quite another matter.

Butchers shops in Toronto are empty, staffs idle, while hundreds of head of cattle remained in the stockyards without sale. There is some ineptitude somewhere.

### GENEROUS CRUICKSHANK

George Cruickshank, that ebullient M.P. who slashed the Ontario peach crop last September in a speech in Parliament which had everybody around here by the ear, is growing more generous. "They are able to grow good fruit in Ontario," he admitted yesterday. Everything wrong, he declared, was in the red netting.

"Mind you," he said, "I have no partisan interest in this at all—I wouldn't say a word against George Drew for anything—but by the action of the Ontario department it looks as if the Ontario government wants to keep the pink gauze because the Ottawa government is opposed to it."

"I have had many letters from producers themselves favoring abolition of the gauze," said Mr. Cruickshank. "One operator who has five orchards wrote that I was able to accomplish more in five minutes in Parliament against pink gauze than he had accomplished in five years' argument outside."

The trouble last year was not in the red netting per se. It was in the character and type of producer who put the stuff below the red netting, who picked his fruit before its time and who fell for bids of truckers who came into this district all the way from Montreal and demanded a cargo. This year, red netting or not, regulations have been stiffened; they may have to be further tightened, but there is reason to expect the condition of 1945 will not be repeated. There was also very bad fruit weather in Ontario last year, a factor not to be discounted.

If Parliament is in session in September this year, some grower should send Mr. Cruickshank a sample, not of the best peaches grown here, just the ordinary, on the understanding that he will share the fruit with his fellow members. Want to bet that he would do it?

In animal parlance. "Just being a bear around the house doesn't keep the wolves from the daughter."

## THE GRIMSBY INDEPENDENT

### DON'T BE IN A HURRY

For some months past we have been scanning with interest the flood of come-on letters that have passed through this office on their way to the waste basket. They tell us there are so many ways of making a living without doing any work, particularly in the fields of mining.

Well, perhaps, there are. But being in weekly newspaper business, we haven't any money to buy mining stocks, even penny ones. But there are a lot of others who have, particularly returned men. And many of them and many others, we learn, are on the market.

We have no objection to mining stocks. On the contrary, there are a lot of mining stocks that we would like to own or be able to buy, but we fancy we would do our buying on the advice of a reliable stockbroker or our banker, instead of on the advice of some high-pressure salesman, whom we had never seen before.

There are not many men who would draw out their savings to bet on a horse race, play poker or shoot craps. Drawing out savings is something that takes a lot of thought and a lot of decision. But many otherwise careful men and women too, have invested their savings after listening to a soft spoken promoter, who professes to having not only second sight but a couple of genie lamps as well. The men who with no pain or labor and in no time will make them rich.

And they will stay in a trance, these suckers, until a hard slap in the purse restores them to reason. But that is a little too late, unfortunately.

As a matter of fact, horses, poker and craps, as a sound investment, are no sillier than these present day get-rich-quick schemes of the high-pressure salesman. It should help to remember, however, that if these super salesmen held the secret of quick wealth, they wouldn't be selling embossed sheets of paper to make a rather poor and questionable living.

### WHAT HAS SWEDEN DONE?

A story is going the rounds pointing out the things which Sweden has done in the way of social services, comparing her progress with the efforts of Canada along similar lines.

It's a pleasure to see our Canadian up-lifters returning once more to Sweden for their inspiration. The circle is now complete. They will soon be home again. Sweden was their first love. Since then they have roamed

the world, pointing out the wonders of other lands, suggesting that other countries and other governments are much wiser, more generous than our own.

Circumstances make Sweden an excellent country to quote. It is some distance from Canada, we haven't much opportunity for finding facts by direct contact. Its currency unit is different from ours. This permits looseness of statement, some even assuming that crowns have the value of dollars. Sweden has kept out of two wars, provided both sides with ammunition and supplies thus growing rich, through a tragedy in which she had no active part. No one blames the Swedish people for this, they have the right to sell where they can sell for the highest price and they have every right to stay out of war if they are able to do so.

This happened with Sweden—not with Canada. For ten years out of thirty-two, almost a third of that period; from 1914 to 1918, then from 1939 to 1946, we have devoted our efforts to freeing the world from despots. Sweden practically alone among the industrial countries of the world was able to enjoy peace while finding excellent markets among her neighbors.

Our national debt moved up from \$314,000,000 in 1913 to \$2,248,000,000 in 1920. Not very much of this was paid off between wars. We started again in 1939 with a debt of \$3,152,500,000 and the debt grew until it reached \$11,298,000,000 on March 31, 1945. There is much more to be added. This does not represent all our costs. We met a great deal of them out of current income. Sweden directed her efforts to other things—we by force of circumstances had to go to war. In any comparison allowance should be made for varying circumstances.

What strange minds some people have! Twenty or thirty years ago few Canadians sought for inspiration in other lands. But now when Canada is a leader among the nations—when everywhere there are words of astonishment and praise for our accomplishments, there are many whose minds roam over foreign lands seeking for means to disparage their own.

Oh yes, let us hear about other countries. Almost any nation has some things which others might envy, but let the searchers for help exercise a measure of detachment, a regard for the realities of the things they are discussing. Strange isn't it how few migrate to those distant heavens? When Canadians leave home they cross the border into the United States. Austin Cross, a well known Canadian journalist, mentions the case of a woman, now an M.P., who years ago visited New Zealand with the idea of making her home in that country, and after careful study of conditions decided to return to Western Canada and settle down at Windhorst, Saskatchewan.

## Change of Management

Mr. Theon Thomas wishes to announce that he will devote all his time to The Walker Studio which he recently purchased in Brantford.

He has secured the services of Mr. Alex. Whyte, for many years an outstanding photographer in St. Catharines, and well known throughout the Niagara Peninsula for his excellent portrait work, to manage the Grimsby Studio.

For appointments at your own home or at the Studio, Phone 555 or Mr. Whyte's residence, Grimsby Beach, Phone 201-W.

## Letters to the Editor

### SHOOTING BIRDS

Grimsby, April 30, 1946.

Mr. Editor:

May I have a small space in your valuable paper for another letter re Our Feathered Friends. Spring is here, so are most of our little birds which most of us are so glad to welcome and hear their beautiful musical note of song.

I wish to know if it is possible to cut out the shooting of so many of these little friends. How glad I am to see the crumbe thrown out for them. I have also seen 100 Robins shot on Sunday which was called sport. They stay with us for a spell then some unseen voice calls them away, that same voice will also call us. I love shooting as well as anyone and this letter is not written to offend. I may let us have a Gun Club here in Grimsby for Target Practice in a sound, safe way where all can meet, who enjoy shooting under proper rules.

Thanking you Mr. Editor for space given me.

Geo. D. Olmstead,  
Livingston Avenue.

## 'WAY BACK WHEN

Frank Fairborn, Jr.

(Reprinted from Sunday, March 17 issue of the Rochester Democrat and Chronicle.)

Thirty-two years before the first cabin was built at what is now the Four Corners, a village was taking shape on the flat lands across the Niagara River from old Fort Niagara.

Rochester became a city of varied industry and manifold interests. The little village—now known as Niagara-on-the-Lake, Ontario, Canada, became the first capital of Upper Canada, the English-speaking portion of Canada west of Quebec.

Today plans are under consideration by the Niagara Post War Planning Commission to revive the glories of the town so Americans and Canadians may realize the culture which was planted at the mouth of the Niagara River in the midst of war 165 years ago.

Of all the names Niagara-on-the-Lake has borne—Loyal Village, Butternut, West Niagara and Newark—its present appellation seems most fitting to those who recognize the meaning of its age-marked buildings, its wide streets, shaded by stately maples and elms, and its air of peace and dignity which bespeaks a glorious past, far removed from the clutter of this modern age.

Aside from the fact that many of the early settlers at Niagara were Tory or Loyalist New Yorkers, there are many historic links binding the Genesee County to the Canadian town.

In the summer of 1779 scouts from the American Army of General John Sullivan penetrated as far as the site of Rochester on the trail of retreating Rangers of Fort Niagara. When Oliver Phelps at the Treaty of Buffalo Creek in 1788 obtained title to the land now the site of Rochester, he had to make a deal with certain enterprising gentlemen on the west side of the Niagara River, who had staked out claims to a great deal of what is now Irondequoit.

By 1774 when the Tories or Loyalists who remained in the United States found it advisable to leave for Canada, settlers began to arrive on the Niagara peninsula in considerable numbers and the village grew rapidly. Among the old houses erected at that period and still standing is Palestine Hill. Capt. Daniel Servos built the house; the last member of his family died only a few years ago, leaving the old house tenanted for the first time in more than a century and a half.

Following the signing of Jays Treaty in London, by which the British agreed to surrender all the Great Lakes fortified posts on the American shores, Niagara lost its strategic importance and surrendered its glories to York, now Toronto, across Lake Ontario. In the summer of 1796 the British flag was hoisted down at Fort Niagara and the American flag hoisted.

Old records show that at one time Col. John Butler of Niagara held a mortgage on the Hundred Acre Tract, which is now the heart of Rochester and which had been given to Ebenezer "Indian" Allen by Oliver Phelps as payment for the erection of the first mills at the Falls of the Genesee.

In the war of 1812, many Western New York farm boys were members of the militia which marched to the Niagara Frontier. The village of Niagara found itself invaded, its public buildings occupied by American troops, its churchyards desecrated, its cattle butchered.

Horatio Jones, said to have been the first settler at Geneva, is credited with many good deeds on the old Frontier. It was he who is said to have guided Elmer Broughton to Victor in 1789 to purchase land. He and his brother are said to have been the first white men to push west of the Genesee River with a wheeled vehicle when they moved in 1789 to the Indian land grant at Leicester.

In the winter of 1813 when the American forces withdrew from Niagara village and recrossed the river, they are said to have burned most of Niagara, York, now Toronto, also was burned by the Americans. In revenge, the British and Canadians burned Buffalo and most of the farmhouses and hamlets on the American side of the river.

Many of the original buildings are no longer standing in Niagara-on-the-Lake, but enough are left to give the town an air of other-worldliness which a stranger can't fail to sense as soon as he enters the town. Structures built in the reconstruction era following the war appear to have kept to the same old architectural lines as the buildings they replaced.

Of three notable churches in Niagara-on-the-Lake, two are of early origin. St. Andrew's Presbyterian Church was erected from plans by Sir Christopher Wren in 1794. St. Marks Anglican Church was organized in 1792, but the church was not erected until 1807. In 1813 the church was among the buildings burned by the retreating American forces. It was rebuilt in 1820 and enlarged in 1840. St. Vincent de Paul Catholic Church was built in 1853, and is therefore contemporaneous with old St. Patrick's Church in Rochester.

Many residents of the Genesee Country have become regular visitors to the Niagara village, but in the period preceding the American Civil War and immediately afterward, a large number of visitors were from the south. Niagara-on-the-Lake was on the route of the Underground Railroad as one of the Canadian points for reception of fugitive slaves. In addition to its enchanting memorial of past glories Niagara-on-the-Lake has numerous modern features of the great era near great.

stages is curable. As a result of research the death rate has been reduced to a mere fraction of one per cent of the population. Thus three of the real scourges have now virtually disappeared.

As has been accomplished in these cases of recent years, cancer can be eradicated. Cancer can be cured and research, I am absolutely sure, will reveal to us the means by which it can be cured. Great progress has been made. Cancer of the external parts of the body is now curable. Many cancers of internal organs are also curable, the most notable examples being, if treated early enough, cancer of stomach, uterus and the large intestine. There are, however, many locations yet which carry a tremendously high mortality, an example of this being cancer of the liver.

I do hope that as a result of constant research, the time is not far distant when all cases of this disease will be curable, and that is why I am asking all citizens to subscribe as much as they can to this cancer research fund, so that this scourge may be speedily wiped out.

### ROADS STILL VITAL

lally in the Township of Louth, was mentioned by Reeve W. H. Sheppard of Niagara Township, speaking for Louth, Deputy-Reeve J. D. Taylor stated that he had heard criticism but that the proposed road in that township appeared to be the best available. Reeve Cecil Record of Grantham Township stated that the only criticism he had heard from Louth came from one source. I am heartily in agreement with the two men, Taylor and Wiley, from Louth. I think they showed good judgment in the road and I give them a lot of credit," he added.

The resolution was withdrawn and the bylaw presented by Reeves C. W. Durham of North Grimsby and W. E. Heaslip of Gainsboro. The bylaw providing for extensions in 1947 and 1948 with surveys to be made this year received two readings unanimously. It will be forwarded for approval prior to receiving third reading and final passage by the council.

At the opening of the council Wednesday morning, the county building rang with music as the assembled councillors rose to their feet and sang "Happy Birthday to You" in honor of their popular 1945 warden, Reeve Cecil Record of Grantham Township. Ex-warden Record who was succeeded this year by Warden Robert Johnston, was celebrating his 44th birthday at his usual seat at the council table. Council adjourned late in the morning to deal with committee work.

### MAKE GRANTS TO

the council again and laid estimates and proposals on the plan before the assembled members. Following some discussion in committee, the council was unanimous in being in favor of the setting up of the branch in the council but not to the extent of accepting primary financial responsibility. They prefer that the V.O.N. proceed with the establishment of the services with the assistance of any voluntary organizations and then apply to the council for a grant after the branch has been organized.

A delegation composed of Bruce Hill, Col. Ivan McIlroy and R. James Weatherill, representing the St. Catharines General Hospital visited the county council and requested financial assistance in 1946. Speaking for the delegation, Mr. Hill pointed to the fact that the hospital had taken care of 1,575 county patients during last year for an average of nine days each and rendered services "second to none."

Adopting the report of the finance committee presented by Reeve Leslie Lysburner of Caistor Township, council made a grant of \$5,000 to the St. Catharines hospital along with grants of \$1,500 to the West Lincoln Memorial Hospital and Niagara Cottage Hospital.

Reeve Charles W. Durham of North Grimsby presented the report of the road committee and acting in accordance to the report, the council authorized the road superintendent to call for tenders for a new roller for the county roads. The special road committee was given authority to accept the tender in the interests of the best. Council also approved the action of a committee in the tender received for the purchase of a paint sprayer for the road department.

Short reports from the General Administration committee under the chairmanship of Reeve R. A. Saunders of Beamsville and the Industrial Home committee under the chairmanship of Reeve George Wiley of Louth were passed without comment by the council prior to adjournment.

The good die young, and also bad auto drivers.

## THE PROVINCE OF PROMISE...

**ONTARIO**, a thousand miles this way and a thousand miles that, is the playground of Canadians and Americans alike. With its diversity of climate, life and interest, the province has everything the tourist wants and he comes in his millions to partake of it. Figuratively, the reception, accommodation and entertainment of these visiting millions set up waves of opportunity-filled activities that affect every phase of the business life of Ontario. The impact of the visitor-industry is seen on every hand . . . it is the wealth of all of us . . . we are a permanent host to millions.

Published by THE BREWING INDUSTRY (ONTARIO)

### A CORNER ON TOURISTS

Annually, by train, boat, bus and private car, more tourists enter Ontario than all the other provinces of Canada combined. In 1945, although gasoline rationing was not lifted until August, 2,070,000 American motor cars came in for less-than-forty-eight-hour stays and 554,000 for longer periods. Competent authorities estimate Ontario's yearly share of tourist revenues as 60% to 70% of Canada's total. The province expects at least 10,000,000 American visitors in 1946.

Here is an excellent exterior view of West Lincoln Memorial hospital, showing the south side of the building and the main entrance. Inset, Miss Douglas MacRobbie, the very efficient Superintendent of the hospital.

#### HOSPITAL REPORT

plotting details, receiving related deliveries of equipment has continued to a point where the Hospital is completed to 30 beds (18 adult, 12 children), and an 8-Bedroom Nursery together with a fully equipped X-Ray Department, Operating and Delivery Rooms, Staff and Doctors Quarters, and Laundry.

Plans and specifications have been completed whereby five 2-bed Rooms, together with Bath Rooms can be worked into the existing building, which would necessitate the building of a Laundry Building outside, all at some future time.

During the past year, the Finance Committee received Cash Donations to a total of \$32,700.87. This, plus \$31,405.27 reported a year ago, makes a total of \$64,106.14 paid in and \$18,000.00 in the equivalent of cash or a total of \$82,786.14. A study of the Financial Balance Sheet shows our current assets to exceed liabilities by \$1,850.36, which will be absorbed by operating expenditures subsequent to December 31st, 1945.

The following will give some idea of how funds were subscribed:

The plans and specifications worked out to add an additional five Rooms (10 beds), are estimated to cost \$10,000.00 and would bring the cost up to \$93,000.00 for a fully equipped 30-Bed Hospital. Architects and Contractors today estimated this cost at about \$135,000.00 as against \$93,000.00.

We are pleased to report that our Hospital is filling that long felt want that we all looked forward to, and the proportion of admissions is very uniform from Winona to Vineland, and south to Smithville. Despite certain stories on rates, your Board has checked on rates and services of other Institutions, and our rates are fixed accordingly.

Despite many handicaps in January and February, our Hospital has during the past three months admitted 143 patients from the following districts:

Winona—12; Grimsby—51; Beamsville—57; Smithville—19; non-resident—3, and has already justified its existence with a splendid record for an efficient and a complete service.

There was still much to do when patients were admitted in January and it will be a little while yet before everything is completed, including such items as window screens, awnings, laundry equipment etc., etc., plus some unforeseen damages.

To the 1280 subscribers we congratulate you on your having done something to help yourselves. You have an up-to-date Hospital, an excellent staff, and in the hour of need it is there to serve you.

Submitted on behalf of the Board of Directors.

Yours truly,  
West Lincoln Memorial Hospital,  
A. R. GLOBE,  
President.

#### LADIES' AUXILIARY, WEST LINCOLN MEMORIAL HOSPITAL

We beg to submit the following report as of March 1, 1946: Receipts including membership fees and entertainment of all sorts \$ 906.27

Women's Institute, Young People's Union, Ukrainian Canadian Association.

Space does not permit acknowledgment of 1280 businessmen, private groups and individual subscribers, whose reward is the knowledge of having established this outstanding accomplishment.

#### Faith Is The Real Foundation

When man loses faith in God, he loses faith in himself; when the sense of the immortal life grows dim, his inalienable rights as a person fade too. For unless man is something more than an animal, he has no rights that anyone is bound to respect, and there are no limitations upon his conduct which he is bound to obey. This is the foundation of liberty in the only sense in which it can endure.—Walter Lippmann

## Still bigger job ahead

Last year, Bell telephone workers installed 187,444 telephones and disconnected 124,861 (surrender of service, change of address, etc.)—a net gain of 62,583.

1945 was the biggest year, but one, in our history. Although we had to repair, re-use, substitute and improvise, we were able to provide telephones for all essential uses and to reduce the waiting list substantially.

But there's a still bigger job ahead. The going rate since V-E Day has been at a higher level than in any other equal period. To wipe out the waiting list and get back to our old ready-to-serve basis will be our chief concern until the job is done. We are making progress to that end.

Where only telephone instruments are involved, the next two or three months should clear our lists. But in many localities central office equipment is the problem and this takes time to make and to instal.

WE ARE LOSING NO TIME.

H. T. Stewart,

Manager

## BANKING IN ACTION

The Canadian Bank of Commerce has for many years assisted in the development of logging, lumbering and the pulp and paper industry across the Dominion. Its branches, whether in old established communities or in the new town sites, serve the many banking requirements of companies and individuals associated with these industries.

BANKING IN ACTION is manifested in the crash of falling trees; in the rush of logs, as the lumberjacks break the jam and speed the timber on its way; in the scream of saws, as busy mills convert it into planks, beams and scantlings. Logging and lumbering provide work and wages for thousands—in the woods, the mills, the construction industry. The stream of wealth thus flowing across Canada is an example of Banking in Action.

## WORLD FOOD EMERGENCY

**We must help feed a hungry world**

A serious shortage of food in certain areas of the world was expected, but crop failures in many areas, and lack of distribution facilities, seeds, and tools in others created a food shortage of alarming proportions. Only immediate deliveries of staple foods can sustain the hungry millions.

### PRODUCE AND SAVE — MORE

Since 1939, our per capita record of food exports has exceeded that of any other country. Food production has soared. Canadians have eaten well in spite of war. Today, the seriousness of the world's food situation calls for even greater efforts. We can increase our food shipments and still have enough for our needs.

### THIS IS WHAT WE CAN DO

We can ship more WHEAT, FLOUR, MEATS, CHEESE and EGGS if as great quantities as possible are made available for shipment during the next four months.

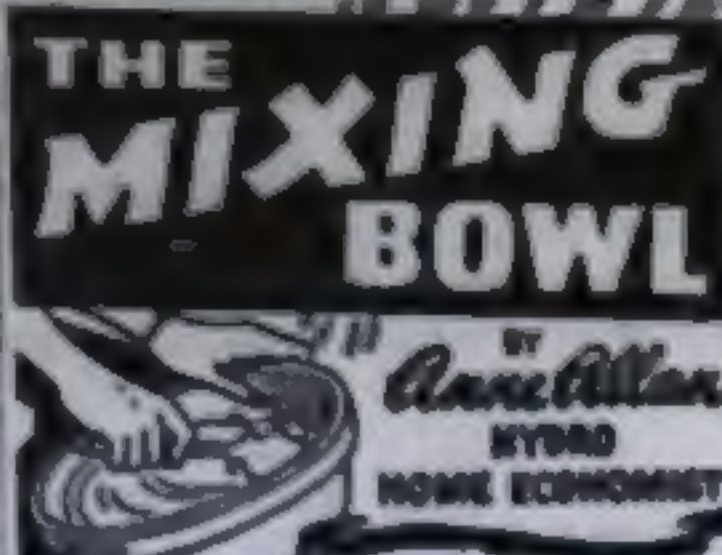

PRODUCERS! — DELIVER TO MARKET.

CONSUMERS! — BUY LESS OF THESE FOODS — BUY ONLY FOR IMMEDIATE NEEDS—WASTE NOTHING—PLANT A GARDEN—SUBSTITUTE VEGETABLES FOR AS MANY OF THESE VITAL FOODS AS YOU CAN.

This will increase supplies at storage depots, thus freeing additional needed foods for the world's hungry. There can be no permanent prosperity for us . . . or anyone . . . while hunger and despair afflict large areas of the world.

**Share with the hungry!**

Food Information Committee  
of  
THE GOVERNMENT OF CANADA

Hello Homemakers! My next door neighbour is a good housekeeper even if she doesn't like housework. Her house is well kept; her work is well planned; her kitchen is so arranged and equipped to make work easy Mrs. T. herself is a fast, efficient worker, but she doesn't believe in spending all her time doing work she dislikes, so she has worked out a plan for managing housekeeping so that it doesn't manage her!

### TAKE A TIP

From Mrs. T.: She does not dawdle over or postpone chores she dreads—gets them out of the way as quickly as possible.

Preferring to do such things as washing and ironing on Monday and Tuesday makes the job so automatic that she is free to think of other things while doing the laundry.

Like many homemakers, she enjoys flowers. Thus she spends one or two hours in the garden, weather permitting, which makes her position as homemaker enviable.

If she gets downhearted the radio is moved to the work area to keep her entertained.

Special cleaning jobs—the silver, paint, windows, etc., are tiresome for many people. Mrs. T. tries the new cleaners and keeps a cleaning box with clean cloths and equipment ready.

Housecleaning at her house is a regular routine: the windows, pictures and mirrors in one room are done thoroughly one week; in the next room the next week; and window curtains, metal trim and all ornaments are cleaned regularly before they begin to look badly.

**CARE OF VACUUM CLEANER**  
1. Never pick up tacks, pins or other hard or sharp objects with your cleaner.

2. Empty the bag frequently—a clean dust container gives better suction; therefore better cleaning.

3. Keep brushes free from hair and threads.

4. If your cleaner is a brush type machine, adjust brushes to correct position.

5. If brush still does not work check the belt. If too loose, replace with a new one.

6. Lighten your housework by using the attachments.

7. Don't run cleaner across cord. Coil cord loosely on hooks when not in use.

**MAKE ELECTRIC CORDS LAST LONGER**  
1. Always connect the cord at the appliance before plugging in.

2. To disconnect, remove the cord at the outlet by pulling the plug—not the cord itself.

3. Wait until the appliance is cold before winding an attached cord around it.

4. Keep your separate cords coiled loosely in a drawer instead of hanging them on a nail.

5. Repair frayed or damaged cords immediately by cutting off the end and re-attaching the plug correctly.

**PROTECTION OF CORDS**  
1. Heat and strong sunlight tend to destroy the insulation, so keep cords away from radiators and never wrap the cord around a hot appliance.

2. Rubbing, pinching in doors, walking on cords, dragging furniture over them—anything that frays the outer covering will sooner or later damage the insulation.

3. Dampness is hard on insulation. Keep cords out of water or places where they will be continually splashed. Don't touch them with wet hands.

4. Kinking, twisting, knotting and yanking breaks wires. Always keep cords loose or tacked with protective staples.

**THE QUESTION BOX**  
Mrs. M. W. asks: Why do cookies sometimes burn on the bottom before they brown on top?

Answer: Cookies baked in too deep a pan may burn on the bottom and not brown on the top because heat cannot circulate around them. Cookie sheets must not be so large in proportion to the size of the oven that they interfere with proper circulation of heat.

Mrs. P. R. asks: Do granite pans absorb heat more quickly than aluminum baking dishes?

Answer: Bright aluminum pans reflect some heat and require more heat than those of granite, enamelware or cast iron.

Mrs. S. T. asks: Why are dumpings soggy on the outside but light inside?

Answer: There may not be sufficient liquid for the batter to be immersed in. Use about 2½ cups of stock in a 2 quart saucepan with a tight fitting cover.

Anne Allen invites you to write to her c/o The Grimsby Independent. Send in your suggestion on homemaking problems and watch this column for replies.

Youth must not only have it's day, but some of them also take half of the night.

## Mainly For MILADY

### Changed Her Mind

Six years ago, when she was thirteen years old, Delphine Purtek, of Chicago, started saving nickels. Her objective was the purchase of a fur coat.

On December 24th, under a load of four sugar sacks and two quart jars full of nickels, she staggered into the Steel City Bank of Chicago. When it was all over the bank clerks had counted 16,000 nickels.

But like many another of her sex before and since, Delphine had changed her mind about getting a fur coat, and used the nickels to buy a \$1,000 Victory Bond. At least she changed her mind to good purpose. And that doesn't happen too often, where women are concerned.

### Shrinkproof Wool Now Promised

Shrinkproof wool is coming "in one or two years," according to the American Wool Council. Housewives whose cherished woollens too often come from wash tubs in unwearable shreds may be relieved to know that G. I.'s are already wearing shrinkproof cushion sole socks, and that shrinkproof civilian socks are "just around the corner," according to the council.

A 30-year search of natural scientists has yielded treatment which are said actually to modify the structure of wool fiber. Each fiber has an inner elastic core and a tough scaly outer coat. One type of treatment reduces shrinking by changing the outer coat of the fiber and decreasing the tendency to curl. A second type, known as resin treatment, subdues the elasticity of the inner core and is thought to cement the outer scales.

In ordinary preshrinking of wool the cloth is run through a bath of hot soapy water. This locks the outer scales and changes the cloth from a mass of separate yarns to a unified strong piece — a process known as "felting." Pre-shrinking alone, as every housewife knows, does not prevent further shrinkage.

The process which made the Army's cushion sole socks shrinkproof cannot be transferred to all civilian socks because it colors the wool brown. This does not bother the Army, but it gives the color technicians a problem to solve before civilian production gets under way.

New "foolproof" shrinkproofing methods make G. I. socks retain their size, shape and wearing qualities even when washed under the most primitive conditions, and will eventually protect even the most harum-scarum housewife, the American Wool Council says.

**What every housewife should know . . .**

## about SUGAR FOR CANNING

There is a world-wide shortage of sugar. Last year world sugar production was twenty-five percent below 1939. Reasons for the decrease are:

- Destruction of the sugar industries in Java and the Philippines.
- Shortages of labour and fertilizers in many sugar-producing countries.
- Last year's drought in the Caribbean area, especially Cuba.
- Damage to European sugar beet fields.

World sugar supplies are pooled for the benefit of the United Nations. Canada, the United States and Great Britain are allotted an equal share of sugar according to population. Available supplies must also be shared with other countries.

### TEN POUNDS OF CANNING SUGAR PER PERSON

This year's canning sugar allowance is ten pounds per person — the same as last year. Instead of special canning sugar coupons, ten additional green "S" coupons are being made available for the purchase of canning sugar.

\$8 to \$12 inclusive become valid on May 2nd; \$17 to \$21 inclusive on July 4th. Each coupon is good for the purchase of one pound of sugar.

The ten "S" coupons for canning sugar are in addition to

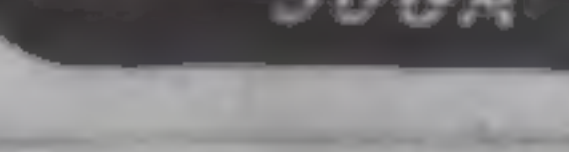

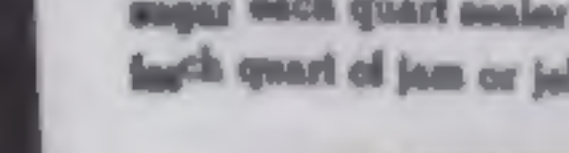

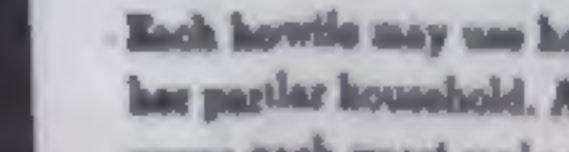

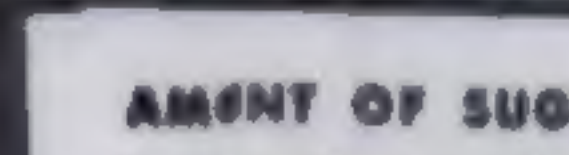

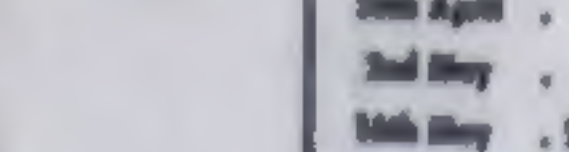

the "B" coupons which regularly become valid each month for the purchase of sugar and preserves.

Those who do not wish to do home canning may use the extra coupons to buy commercially packed, jams, jellies, canned fruit, etc., or sugar to supplement the regular ration.

The ten "S" coupons for canning sugar need not be used immediately they become valid. You will be given ample notice of their expiry date.

### THESE ARE YOUR "S" COUPONS FOR EXTRA SUGAR

VALID MAY 2

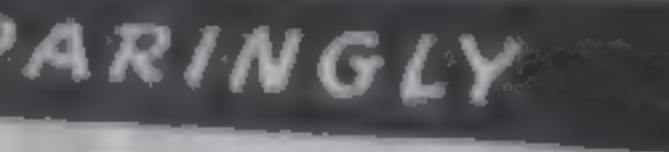

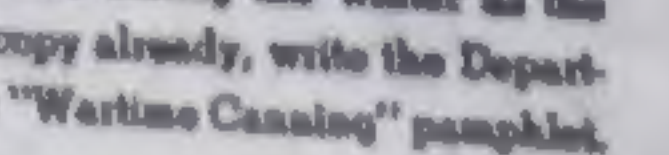

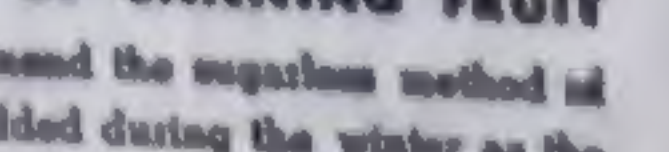

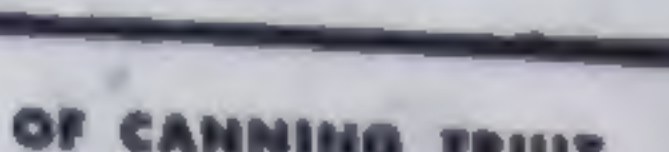

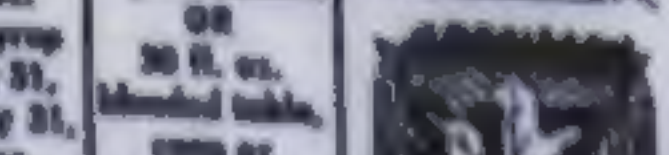

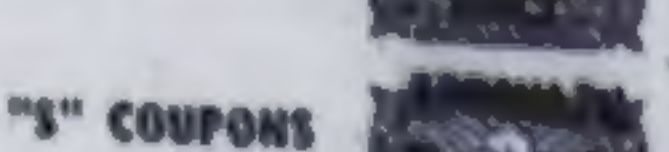

Any valid "S" Coupon, including those shown here, may be used to purchase sugar for canning, or the amount stated below of preserves.

The green "S" coupons \$8 to \$12 and \$17 to \$21 are in addition to the "B" coupons which regularly become valid each month for the purchase of sugar and preserves. They are validated to make available extra sugar for home canning or for other household uses.

### "S" COUPON CALENDAR

4th April . . . \$5	20th June . . . \$15 and \$16
10th April . . . \$6 and \$7	4th July . . . \$17 to \$21
2nd May . . . \$8 to \$12	18th July . . . \$22 and \$23
16th May . . . \$19 and \$24	15th August . . . \$24 and \$25

VALID JULY 4

### ALTERNATIVE VALUE OF ALL "S" COUPONS

1 lb. of sugar OR 24 fl. oz. jam, jelly, marmalade OR 4 lbs. heavy butter OR 40 fl. oz. canned fruit	OR 24 fl. oz. jam, jelly, marmalade OR 4 lbs. heavy butter OR 40 fl. oz. canned fruit	OR 24 fl. oz. jam, jelly, marmalade OR 4 lbs. heavy butter OR 40 fl. oz. canned fruit	OR 24 fl. oz. jam, jelly, marmalade OR 4 lbs. heavy butter OR 40 fl. oz. canned fruit
--	---	---	---

### AMOUNT OF SUGAR USED IN CANNING

Each housewife may use her canning sugar to fit the needs of her particular household. A common method is to allow ¼ lb. sugar each quart jar of canned fruit; and 1½ lbs. sugar each quart of jam or jelly.

### SUGARLESS METHOD OF CANNING FRUIT

Many home economists recommend the sugarless method of canning fruit. Sugar can be added during the winter as the fruit is used. If you have not a copy already, write the Department of Agriculture, Ottawa, for "War-time Canning" pamphlet.

### WOULD CREATE

palities had too few pupils and were not able to afford it.

Pointing out that greater emphasis is being brought to bear on vocational courses, Mr. Rendall declared that the rural pupils have as much right to a technical education as the city pupils. "It is quite unfair," the speaker added, "to expect a smaller community to build a school and operate as good a school as a city with an assessment of ten or fifteen million dollars behind it." Mr. Rendall stated that he hated to put a dollar mark on schools in Ontario but that has actually been the case. "Our schools," he said, "reflect the wealth of the community behind them." He added that rural people have not been getting their money's worth in comparison to city people who are paying the same school rate.

Mr. Rendall stated that farmers are getting "sick and tired" of trying to get their children to high school. He pointed out that in the new high school districts being set up in Ontario some focal point is picked by the communities at which the school can be set up. Each county, and sometimes county lines are abolished, is divided into districts, each district going out 15 miles from the central point, more or less. "You must be sure," he cautioned, "that the district is large enough to make a job of it, that you have enough pupils, 400 or at least 300." He stated in closing his two-hour address that it is hoped to include academic, commercial, shop, home economics and agriculture on the curriculum in an effort to give all children equal opportunities in education.

Reeve Cecil Secord of Grantham township extended the appreciation of the council and assembled education officials to Mr. Rendall for his interesting and informative address.

Following Mr. Rendall's address, the education committee of the council met under the chairmanship of Reeve W. L. Patterson of Niagara-on-the-Lake. Council approved the committee's report recommending the setting up of a consultative committee, as outlined by Mr. Rendall, to study secondary education in the county, the members to be appointed at the next session of the council. Council also approved a recommendation from the committee that a special library grant be made to the various school boards of the county, the grant to be 25 per cent of expenditure for library additions approved by the public school inspector.

Deputy-Reeve Harold S. Freure of Clinton presented the report of the charity and welfare committee to council, recommending payment of accounts. Prior to adjourning, on a motion of Reeves Secord of Grantham and W. H. Sheppard of Niagara township, council voted unanimously to make a grant of \$1,000 to the Ontario Cancer Foundation.

Proposed by Reeve S. H. Ecker of South Grimsby and Deputy-Reeve Freure of Clinton, the following resolution was passed by council at the close of the April sessions last evening:

"Whereas under the Public Health Act 'municipality' does not include a county and bylaws pertaining to health matters may only be passed by local municipal councils for each municipality.

And whereas in counties where health units have been established it is preferred, for uniformity and convenience, to have bylaws pertaining to health matters passed by the county council for the whole county.

Be it therefore resolved that the provincial government be requested to amend the Public Health Act to provide that where a health unit has been established in and for a county, the powers and duties of local municipalities shall henceforth be exercised and performed by the municipality of the county.

### DUTCH PEOPLE ARE

town I should not have done it, for on the note was not the street or something other where you lived.

I am fourteen years old and am a scoutboy.

One hears very fine tales of Canada with its woods and lands, cowboys and wildhorses, and the Indians which live in the W. of your country. When I am 18 years old I'll go into the Dutch navy like my father and then I hope to see Canada and then I'll visit you.

I thank you for the coat I received and hope to wear it with pleasure. I hope you will write back as soon as possible.

Christiaan de Weber

Amsterdam, December, 1945.

As you can see by your own note, which I stuck on my letter, came I in the possession of your coat.

But first let I present myself. My name and address you'll find on the back of this letter. I am 44 years old, and father of 4 boys and 4 girls. Their ages vary from 2 to 14 years. I am a police officer by the motor brigade.

Most likely you read in daily papers all about the year time we have in Holland a terrible through.

When the German our beautiful country so cowardly over-ran, we hoped and thought he would run, we for long, but in this wouldn't stay rity disappointed. Just were terrible although we knew better the same, optimistic, and the star, we kept people helped the strong-minded keep their courage upswellings to

In the first stages of the war there was plenty of everything in Holland, but after two years the Germans bought and stole everything they could lay their hands on, with the result there was nothing left over for the Dutch population. This was the beginning of a long time of misery and starvation.

In my family of 10, first the clothing was short. From my own coat and shirt my wife made dresses and underwear for the smaller girls. Even the curtains were cut up to make coats for the older girls. Also my wife's clothing soon had to be used for the children. Pretty near every night she was sewing and patching till the wee hours.

The same with stockings and shoes, fixing till there was nothing left over. Life at that stage was no picnic. Thank God, we still had our radios, but even these we have to hand over later on, and all the news we received from then on was clandestine and by listening to this, one risked his life.

I was a member of the underground, and one day 18 of us, me included, were caught and thrown in jail. Sixteen of those were shot. I escaped after six weeks of suffering. No need to say, all my belongings were confiscated by the Germans.

The food situation by that time was worse. It is unbelievable the hardships we had to go through. Thousands died from starvation, and there were no facilities to bury them decently, no caskets or even transportation to give them their last rites.

But thanks to the Lord the war is over, and for this we have to thank the Canadian soldiers. We

will never be able to express our gratitude for the wonderful things they have done for us.

In comparison with a year ago, we have now heaven on earth, although there is still a shortage of many things. There is plenty to eat, anyway enough to fill our stomach, be it not always the most nourishing ingredients.

The thought alone that every day will be brighter gives us courage to face years of struggle to get back on our feet again.

And now, dear sir, our heartfelt thanks for your welcome gift, and if you ever come to Holland, it would please us if you would call on us.

Our best wishes to you from us

Sincerely yours,  
 P. J. Bouwmeester.  
 Vormerveerstraat 10  
 Amsterdam, Holland.

## SPORTOLOGY

(By Bones Livingston, Sportologist)

**NOTES FROM LITTLE WHEELER'S DIARY**—Grimsby's own MARVIN WENTWORTH, playing over the St. George's course in Toronto, on Monday, made a hole-in-one. For 15 years Marvin has been a low score golfer over Ontario links but this is his first Ace. . . . Next Wednesday night the Men's Bowling league partake of one of PEGGY O'NEIL's famous banquet meals at The Inn. This is one place where the boys are all 300 bowlers. . . . And while on the subject of banquets people are inquiring about it, some have even made donations towards the Canadian Legion will hold a big field day and athletic meet on the High School grounds and a big street dance at night. Keep the date open. . . . "we-hee-hee-hee" — and the GENERALS put the skids under the GASHOUSE again. Look at the figures. That hip pocket of RAHN'S has shrunk considerably. So much so that it is too small to hold a championship. . . . IRON DUKES beat out the PONY EXPRESS in their section of the merry-go-round play-offs for the big dough. . . . STANQUILLING with 329 and HELEN FISHER with 282 won the War Savings Stamps last week for the grown-ups. . . . BERNICE BYFORD in a repeat effort with 295 and LEE SMITH for the second time with 287 took the stumps for the teen-agers. . . . In 15 games GENERALS rolled an average of 1075. Fair trundling say we. GAS HOUSE had an average of 1064.

**THERE'S A BOOM IN HOCKEY ARENAS**—Clayton Brown, Sports Editor of The St. Catharines Standard, writing in that paper says: "They're off! Not the opening of horse racing, friends, but the first breach into the pockets of Falls-area citizens for their new ice arena. Monday saw 300 canvassers start out campaigning and it is for a community plant of Falls-Stamford-Chippawa zones. The plan is for a \$150,000 layout and contrary to this city, the sponsors hope to keep the athletic centre open for the full 12 months of the year.

They base that upon the fact that Garden City arena has prospered to these extents since opening:—1930, \$7,000; 1940, \$8,300; 1941, \$11,500; 1942, \$9,737; 1943, \$5,511; 1944, \$5,953. The Falls also quote Owen Sound's \$75,000 plant, which operates 12 months a year and has paid back over \$25,000 to the Georgian Bay Indians. The little town of Simcoe also is plant-conscious for \$115,000 and have raised \$70,000 already.

Of late, little has been said of Welland, but a forerunner is in the entry of a junior A franchise for the county seat. The site still has the big sign on it and our agents said the "right people" had assured the sponsors of steel galore for the structure. Later, a spy advised a bit of worry between two factions of adjacent areas and we gather that things are a deadlock until that kink is ironed out, worse luck.

Every bit of moral support possible goes from here to both the Falls and Welland, along with Fort Erie, who are well away with their arena. We could visualise the time when all the gross profits are not eaten up in travel and also foresee 500 to 1,000 fans driving to see Saints play there in junior-senior loops, as it used to be in the olden days.

If, in the coming boom years when money is lushest, neighbor places do succeed with arenas, the parent OHA could be well advised to offer every aid possible. Oh, yes, there is plenty of room for improvement in the higher offices, not just sitting back and letting the cart lug the horse, while they rake in cushy salaries and stack up huge reserves.

"... AND NOW FOR A POUND OF EGGS MADAM?"

Quoting eggs by the pound would be confusing, wouldn't it? You buy eggs by the dozen, milk by the quart, meat by the pound. By what measure do you buy electricity?

You buy electricity by the kilowatt-hour, and you should know what a kilowatt-hour can do for you.

An electric lamp or appliance is usually marked "60 watts", "100 watts", "1000 watts", as the case may be. The mark simply indicates the number of watts of electricity that the lamp or appliance will use. A kilowatt is simply 1000 watts. A kilowatt-hour is 1000 watts used for one hour—or 100 watts for ten hours. So that one kilowatt-hour will operate your 1000 watt electric iron for one hour. And at what a small cost!

The average urban rate for Hydro in Ontario is about 1-1/3c per kilowatt-hour. Just over 1c to light a 100-watt lamp for 10 hours, or drive a washing machine for four hours! Isn't it great to live in Ontario, where Hydro rates are among the lowest in the world?

### Stubborn Star Achieves Goal

Eddie Bracken has reached the "blue chip" class, put there by what is left by Uncle Sam out of an income better than half a million a year. Six thousand a week of this is what he gets from his new radio program. The rest is what Paramount pays him.

Eddie credits his success to the fact that he is stubborn. He gets an idea and permits nothing to shake him. He always has plans. It was his plan to be a movie star. He made it. It was his plan to become a radio star and own his own show. He made that, too. His next plan is to become a movie writer and producer and make his own movies.

"But I'm not ready for that for another two years," he says.

Bracken is going to concentrate for the next two years on making movies and establishing himself in radio. He likes pictures, and is especially keen on "Hold That Blonde!" his most recent Paramount comedy, co-starring him with Veronica Lake. The film is now at the Roxy Theatre.

"I've been excited about three movies I've been in since I've been in Hollywood," he said. "The first was 'The Miracle of Morgan's Creek,' the second was 'Hall the Conquering Hero,' and this—'Hold That Blonde!'—is the third. The others were more work than fun."

Bracken and Miss Lake are supported in "Hold That Blonde!" by Albert Dekker and Willie Best, among other top-notch players. Paul Jones produced.

**CANADIAN NATIONAL RAILWAYS**

The Lamplighter—by Jack Martin, O.S.A., C.P.E.

## Out of the Twilight

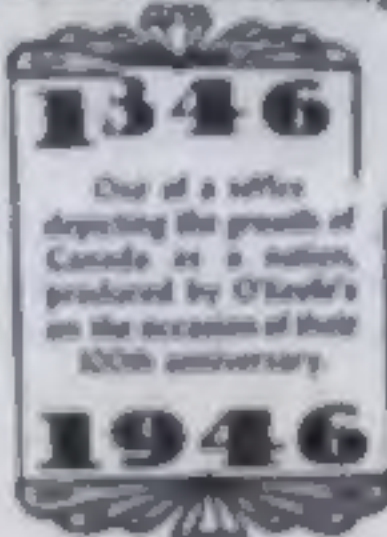

LIGHT THAT WOULD SPRING into being at the touch of a switch! Light that could be fed by the force of a waterfall hundreds of miles away! Old timers shook their heads and walked warily around the new electric light standards. Jim, the lamplighter, left his flame-tipped lighting pole at home and did his regular rounds with a pair of pliers and a handful of

carbon pencils, shaking his head at the newfangled invention that had turned his world topsy-turvy. But the children in the Canadian cities accepted the change with unalloyed enthusiasm. Glee they followed the Lamplighter—turned-electrician, gathering as prizes the burned-out carbons.

Great men like Sir Adam Beck, father of the Ontario Hydro-Electric Power System, were to set the pattern of publicly owned power development for the world. Enterprising businessmen

were working over plans for the electrification of their factories. The stubby black carbon pencils the children of the '90's collected were a portent and an augury for the bright light of Destiny that was to shine on their country.

Today, by our purchase and holding of Victory Bonds and War Savings Certificates, each one of us has a chance to play a personal part in the bright future of our country—To invest our savings, as we place or faith, in the Canada Unlimited of tomorrow.

## Easter Services

Easter union services were held in Trinity United Church Good Friday morning for the congregations of the Presbyterian, United and Baptist churches, with Rev. L. O. Bristol, B.A., B.D., S.T.M., of McMaster University, speaking on The Challenge of Evil. Special early morning services were held in St. Andrew's Church for those who could not attend later and accounts and girl guides. At noon a three hours' devotion was conducted by Rev. J. M. N. Jackson, of St. Thomas' Church, Toronto.

All churches were filled to capacity Easter Sunday at all the services. In Trinity United the music included the prelude, Resurrection Morn—Johnston, the anthem, By Early Morning Light—Dickenson, Sing Alleluia Forth—Thiman, In Joseph's Lovely Garden—Dickenson, a solo, Alleluia, by John Ansell and the postlude, Hallelujah—Handel, for the morning service. For the evening the prelude was Ravennell's Christus Resurrexit, an anthem, Why Seek Ye the Living—Cooke, with Mrs. Arthur Vickers taking the solo part, and a solo, Open the Gates of the Temple, by John Ansell. Mrs. Arthur Vickers sang, He Lives, and Misses Joan Eaton, Lois Rahn and Isabel Pickett sang Consider the Lilies.

The choir at Grimsby Baptist Church sang the anthem, Bells at Easter—Denson, and Hosannah to the King—Ackley. In the morning Mrs. Harry Coulson and Mrs. George Konkle sang He Did Not Die in Vain in the evening Miss Vanetta Stuart sang, He Lives—Ackley. The pastor, Rev. R. C. Standerwick, spoke on The Price of Resurrection and on The Afterglow of Easter. Mrs. Floyd Simpson is the choir leader and Miss Greta Ormiston the organist.

Rev. A. E. Brooks, of St. Andrew's Anglican Church reported a record number of communicants for the communion services, on Easter day. Included in the special Easter music were two anthems by the choir, O Death Where is Thy Sting—Edmund Turner, Alleluia, the Strife is O'er by Vincent. Two services were held in the afternoon, the children's, when they presented their Lenten offerings and one of Holy Baptism.

Lo From the Grave He Rose, and He is Not Dead were the anthems sung by St. John's Presbyterian Church, under the direction of Mrs. Duncan McIntosh, organist and choir leader. In the morning Miss Joyce Mogg and Mrs. L. E. Larsen sang.

## Births

TUFFORD—Dr. and Mrs. Walter Tufford of 600 Greenwood Place, Winnipeg, Man., are happy to announce the birth of their son (Robert Walter), April 15th, 1946, at the General Hospital, Winnipeg, Man. Mother and baby doing nicely. (Mr. and Mrs. Claude Tufford of Beausville are grandparents.)

## Mothers' Club

The regular monthly meeting was held at the home of Mrs. W. Stuart, 50 Robinson St. South. The meeting opened with the hymn "Blest Be The Tie That Binds", followed by the Lord's Prayer in unison, the scripture was read by Mrs. R. Bowman. Mrs. E. Tomlinson the Club's President presided over the meeting.

Mrs. R. Bowman will assist Mrs. H. Henley on the Club Committee. Business concluded, the meeting ended with the Mphah Benediction. Lunch was served by the convener Mrs. J. Drham, assisted by Mrs. J. Lawson and Mrs. R. Bowman.

## Birthday Party

Last Saturday evening Mr. and Mrs. Walter Woot opened their home for a surprise Birthday Party in honour of Miss Ruby Wilcox and her cousin Gordon Atkinson, whose birthdays fall on the same date. Unfortunately Miss Atkinson was prevented from attending.

About 70 relatives and friends were present from Abingdon, St. Catharines, Dunnville, Ridgeway, Lowbanks, Stoney Creek, N. ara Falls and Grimsby. In playing games and dancing and Ralph Atkinson, Lloyd Atkinson and Clifford Coldwell. Local cowboy songs, and sang and Mrs. Gordon Atkinson cut a was served by and a daintily by Jean Wilcox, hostess, as G. Atkinson, cox, J. Allen, Miss E. Atkinson, Mrs. A. Croppitt, and Mrs. Tom Spitt.

The many beautiful gifts, opened by Ruby and Mrs. Wilcox, who expressed their thanks of chosen words. The good was the guests for many happy brought the party to a

A juke box is one of song, which should be traded

## Butter Ration Will Be Raised

Because of the low supply of butter the present ration system of 4 ounces per week will be maintained until May 15th, Wartime Prices and Trade Board stated recently.

From May 15th to June 6th the ration will be at the rate of 5 1/4 ounces per week and on June 6th it will be restored to 6 ounces per week.

Valid dates for butter ration coupons will be as follows: May 2, May 16, May 23, June 6, June 13 and June 20. This means that one butter coupon, good for one-half pound of butter, will fall due on each of these dates.

## Colored Cottons

Russian scientists and research men working at the Delta Experimental Station of Mississippi are said to have succeeded in producing cotton colored by nature's own hands. The scientists claim that they have produced color-fast tints in red, green, azure, dark brown, blue and khaki.

Some of this colored cotton is being hand-processed and made into yarn to see if it is just what they hope it is. Whether this will prove to be a profitable commercial discovery has yet to be proved.

A dog is an animal that always waits until about 2 a.m. to knock over the garbage can.

Mon. Leopold Macaulay, K.C., of Toronto, new president of Ontario Division of Red Cross. Mr. Macaulay was president of the Toronto Branch of the Society during the past two years.

## Put Pension Fund On Sound Basis

Great developments are taking place in the United Church of Canada, which claims to represent one-fifth of the population of the Dominion and to be its largest rural Protestant church.

At the moment the church is undertaking its greatest financial effort—\$2,500,000 new capital for the pension fund. This was authorized by the last General Council, when a committee reported the pension fund was not actuarially sound. It is the intention to have every member in the 11 conferences, 115 parishes and 2,752 pastoral charges interviewed. When it is considered that the United Church now claims 750,000 members, this is a sizable job.

The United Church of Canada having underwritten its missionary and maintenance and church union deficit of \$1,700,000 is now aiming to have all other funds placed on a secure financial basis.

The Hamilton presbytery has been asked to raise \$170,000, each church in the district being given an objective and they are challenging to the membership.

At the time of church union there were five different pension funds in the uniting churches, none of which was meeting its obligations satisfactorily, and this was not improved since union. A variety of causes included the depression, reduction in interest rates, and, strange to relate, the longevity of those on the fund, 51 at present being over 90 years of age. At the present time over 1,000 ministers, widows of ministers and children are on the fund at a yearly outlay of \$761,000. The general canvass will begin April 26 and last for three weeks.

Mr. Spencer Merritt of Grimsby is a member of the general committee of the fund for the Hamilton area.

April 22nd—To Mr. and Mrs. Arthur Lee, Smithville, a son.

April 23rd—To Mr. and Mrs. Hugh Stevenson, Beausville, a son.

Life is just one vitamin pill after another.

## WEST LINCOLN MEMORIAL HOSPITAL

Notice is hereby given that the Third Annual Meeting of the members of the West Lincoln Memorial Hospital will be held at Masonic Hall, Grimsby, Ontario, on the 29th day of April, 1946, at 8 p.m. (D.S.T.).

## BUSINESS:

To receive reports, elect Directors for the ensuing year, appoint auditors, and such other business as may be properly brought before the meeting.

B. H. SCOTT, Secretary.

of the WEEK in  
TABLOID

Primroses are in bloom.  
Please send in your news items.  
C.N.R. Time Table changes this Sunday.

Board of Education meets next Wednesday night.

All Canada Coach Lines buses will run on Daylight Saving time.

Several Grimsby Lions visited Hamilton Lions Club on Monday night.

Frank Ball has accepted a position on the mechanical staff of The Independent.

Call Millyard's Drug Store and find out about the new time schedule on the Gray Coach Lines.

A large number of Grimsby Lions attended the Lions Zone meeting in Beamsville yesterday.

Gather up all your old scrap metal and other salvage for the big Legion Salvage Collection on Saturday, May 18th.

Two more Grimsby servicemen arriving from overseas this week on the Ile de France, are Pte. R. E. Lally and Pte. C. W. Sops. The Independent has no information about either of these men.

A grass fire which got out of control Good Friday afternoon spread to a wood pile on the Harold Woolverton farm on the Ridge road and several cords of wood were burned before the blaze was extinguished by local firemen.

Work has again been started on the new addition to the Hotel Grimsby, which was originally started five years ago, but held up by government restrictions. Jack Newton has now completed the brick work and the new plate glass window has been installed.

Next Wednesday is May Day. A new fruit distributing company to be known as the Westworth Fruit and Supply Company Limited, with head office in Grimsby, has been granted Letters of Patent Incorporation. Charles Henry Reiser of Grimsby is the head of the new concern.

Automobile and bus traffic through this district was exceptionally heavy Good Friday and Easter Sunday on both the Queen Elizabeth Way and No. 8 highway. Traffic police commented that bicycle riders were more numerous than they had ever seen on the highways before. The order prohibiting cyclists on the Queen Elizabeth is being enforced in this area.

Twenty-three fruit growers from the St. Catharines area were scheduled to appear in court Tuesday on charges of selling fruit last summer in excess of the Wartime Prices and Trade Board ceiling prices. John Franklin, counsel for the WPTE, said he had been asked to arrange adjournments, and the hearings were set for May 6 and 7. Four growers who have already pleaded guilty to the charges will appear May 13 for sentence.

A good mixer nowadays is the fellow who is handy with a cocktail shaker.

A preacher says there are still mansions in the sky. It seems like that is where some of the rents have gone.

**Returns Home**

Spr. Herbie Keir, who returned from overseas a month ago, but has been visiting with his relatives in the Lower Ottawa Valley district, was in town on Monday on his way to Toronto for final discharge from the service.

**Vinemount News**

The Y.P.U. of Empire United Church presented a play, entitled His Name Was Aunt Nellie, in the Vinemount W.I. hall, Wednesday night, for the Y.P.U. of Tapscott United Church. During intermission Misses Betty Ann Rodgers, Ruth Giffen, Jean and Norma McIntosh, June Wyse, Reita Thomas, Phyllis Fowler and Miss Doris Thomas took part.

The April meeting of the local Women's Institute was held at the home of Mrs. Harry Sturch on Wednesday afternoon. The president, Mrs. G. A. Gliddon, presided. Wren Annie Johnstone, just returned from H.M.C.S. Stadacona, Halifax, gave a very interesting report of her work. Refreshments were served by Mesdames A. Reid, H. Depew, W. Manary and Harry Sturch.

A velvet stage curtain, table cloths, towels, playing cards and numerous other articles were stolen from the W.I. hall this week.

The first Weiner Roast in the district was held on the farm of Mr. and Mrs. Delmer Travis, R.R. 1, Vinemount, on Monday evening when their son Garret, and Eddy Howard, decided to make good use of the grape brush, by burning, and entertain the boys and girls who tied the grapes, to a hot dog. Several games added to the enjoyment of the evening.

A Good Friday service sponsored by the Vinemount Women's Institute and Teen-age canteen members was held in the W.I. hall with Rev. John Sutherland in charge of the service. A fine representation of members of the different churches was present. Collection received to be used to purchase an Honour Roll for all the boys and girls who served in the second great war, and those who paid the supreme sacrifice.

**"Dolly Sisters" Coming To Town**

All the glitter of their glamour, all their loves and their laughter, all the daring of the fabulous sisters who set a world aflame with their songs and broke a million hearts comes to the screen when "The Dolly Sisters," 20th Century-Fox's spectacular Technicolor musical starring Betty Grable, Jen Payne and June Haver, opens today, Tuesday and Wednesday, April 29, 30 and May 1, at the Romy Theatre.

Studded with scintillating new song hits by Mack Gordon and James Monaco, and packed with the year's most spectacular sequences, "The Dolly Sisters" unveils the poignant drama, scored the talented sisters' sensational adventures as the toast of the entertainment world from darlings of the Riviera and as the of royalty.

For Betty Grable, the photographic role, and the high her an content of the story gives opportunity to display her with tional acting ability along the already famous Grable of and-dance glamour. In the whose Harry Fox, the song wily made romance with Jenny D., John headlines the world over, left Payne continues where / Air off before joining the Air was Forces (and from which hed) recently honorably discharged as one of the screen's top id stars. June Haver meets the to test of her sensational riy's stardom as Rosie Dolly, equally talented sister.

An old-timer is the one who can remember when a girl didn't put on or take off her complexion.

It takes all kinds of people to make up the world. A freak can think up a freak religion and there are franks to join it.

**Welland Tax Rate**

WELLAND, April 17.—Welland County Council yesterday struck a rate of four and a half mills, an increase of three-quarters mills. To arrive at this rate the Finance Committee found it necessary to dip into a reserve fund of \$65,000 to the extent of \$23,815.30. Of the total rate, three mills is for general purposes and 1 1/2 mills for roads, the latter being an increase of one-half mill. Net expenditure was estimated at \$161,270, of which \$68,729.55 was for roads.

**Careful Veterans**

Headquarters Military District No. 2 has been advised that a number of stores have been selling a ribbon, purporting to be that of the Second Great War Victory medal, to members and ex-members of the Canadian Forces. An enquiry to N.D.H.Q., at Ottawa resulted in the statement that the ribbon—red centre, narrow white borders flanked by narrow double rainbows—has not been authorized for wear by Canadian or British personnel although it has been authorized for U.S. Personnel. Therefore it is improper to wear it along with other ribbons, authorized for Canadians. It must not be worn except by personnel who have had prior service with the U.S. Forces.

**Well Represented On Directorate**

At the first annual meeting of the Lincoln Concert Association held at the Beamsville High School, last Thursday night, officers were elected for the ensuing year. George E. Wiley, Reeve of Louth Township, was elected as Honorary President, Frank J. Thomson of Beamsville was elected to the office of honorary vice-president. Filling the president's chair will be Major R. G. Saunders, who will also attend to the managerial duties of the Association. Mrs. H. M. Hutchinson of Vineland Station and Charles Shepherd were elected as vice presidents.

Mrs. R. G. Saunders will fill the secretary-treasurer's office, and she also will act as librarian. Mr. Chas. L. Tallman will continue as Conductor, with Mr. William F. Tufford as associate conductor.

A Board of Directors will consist of Mr. Leonard Bromley, Grimsby; H. N. Reid, Beamsville; Mrs. F. Barron, Silverdale; Mrs. David Sloan, Louth Township; Raymond Howey for Beamsville School Area; Miss Doris Bromley, Grimsby School area. Mr. William West for business and technical exterior to West Lincoln. Auditors: E. H. Coleman and Mr. C. I. McKellar. The auditors' report was presented at this meeting.

Letters of congratulations were read from Hon. Charles Diney, read who made known that he M.L.A. arrangements to new-work Charter for the Association. Curious gift was forwarded to A gentation from Mr. Leo Martin.

### Troubles With Sour Cherries

Two entirely different diseases  
have very similar effects on sour  
cherry trees, namely, the yellowing  
and casting of leaves. It is import-  
ant for growers to distinguish be-  
tween these two troubles which  
frequently may be present in the  
orchard at the same time. One is  
the fungous leaf spot or shot-hole,  
which may be controlled by spray-  
ing, while the other is cherry yel-  
low, a virus disease, which is not  
amenable to spray practices, says  
G. C. Chamberlain, Dominion Lab-  
oratory of Plant Pathology, St.  
Catharines, Ont.

Cherry yellows is caused by a  
bud-transmissible virus. It may,  
therefore, be introduced into the  
trees either when they are budded  
in the nursery, or top-worked in  
the orchard. It may also be trans-  
mitted from tree to tree in the  
orchard by insects, the rate of annual  
spread as indicated by surveys be-  
ing about 3.5 per cent. Once a tree  
is infected, the symptoms will ap-  
pear to a greater or lesser degree  
each year. The most striking sym-  
ptoms are green and yellow mottling  
almost to complete yellowing of  
leaves, followed by leaf drop which  
begins about three to four weeks  
after petal fall and continues for  
about 10 days. These symptoms  
may be easily confused by the  
growers with those caused by the  
leaf spot fungus.

In the case of leaf spot minute  
red to purple spotting may be ob-  
served on upper surface of the  
yellowed leaves, and small white  
pustules may be quite readily dis-  
tinguished on the lower surface. This  
disease may appear on the trees  
anytime during the growing season.  
The control of the leaf spot disease  
is outlined in the Ontario Spray  
Calendar for stone fruits. In ex-  
periments at the laboratory at St.  
Catharines the fixed copper fungi-  
cides have proved effective preven-  
tives.

If yellowing accompanied by  
casting of leaves, occurs in or-  
chards well sprayed with the proper  
fungicides it is most likely due to  
fungicides yellowing, which is  
the cherry-constriction disease. As  
cannot be controlled by sprays,  
most sour cherry orchards in On-  
tario are infected to a greater or  
lesser extent with this virus disease.  
Growers should try to protect their  
orchards from the possibility of ad-  
ditional leaf drop due to the leaf  
spot fungus, by thorough and effec-  
tive spraying with a fixed copper.  
In so far as cherry yellows is con-  
cerned its control consists in the  
removal of diseased trees, but this

is only recommended for young  
orchards where only a few trees  
may be infected.

Remedy: As hard to keep supplied  
with bulbs as the electric light  
sockets of a home.

### Consumer Will Get A Break

(Editorial in The Star and Sun  
Editor)

The average consumer has little  
love for Government orders-in-  
council because of the things they  
have been known to do to him  
when he goes on the market. But  
we believe every last consumer will  
be highly in favor of the one re-  
cently issued in Ottawa.

By it, peach growers in future  
will have to display their wares as  
Nature made them—in the raw. No  
longer will it be permissible to  
cover a basket of peaches with the  
seductive but very deceiving pink  
veil, so familiar on the market for  
so many years.

It was last year that peach  
growers went just one step too far,  
and thereby killed the goose that  
laid the golden eggs. It was a year  
when the peach crop was prac-  
tically a failure. But truckers tried  
to cash in on the failure by per-  
suading growers to put on the  
market peaches that rotted long  
before they ripened, and covering  
up the sin by a pink veil over the  
basket.

Of course it had been done be-  
fore, but the deception was never  
so apparent when the veil was  
ripped from the basket, and the  
whole peach industry suffered a  
bad black eye as a result. Conse-  
quently the change will be as ben-  
eficial for the grower as for the  
buyer. One can not fool all the  
public all the time, so there will  
not be any permanent profit in  
continually trying to deceive the  
buying public.

If things are not really what  
they should be, or seem to be, that  
fact will soon be discovered despite  
a pink netting. Even yet it is pos-  
sible that buyers may find the top  
layer of peaches in a basket no ac-  
tual pretension of what is below,  
but at least they will be able to  
examine that much.

No adult man or woman should risk missing the startling  
frankness of

# BEAMSVILLE NEWS

## PROVINCIALS WILL TAKE OVER BEAMSVILLE POLICE DUTIES

Beamsville Village Council in special session Tuesday night adopted a system of police, as outlined by the Ontario Provincial Police, and a Provincial Constable will commence his duties in the Village on May 1st.

Attending the meeting was District Inspector Airey, who further outlined the system and presented to Council, Provincial Constable W. M. Bayes, who will fill the Beamsville police office. Thus this municipality becomes the fourth in Ontario to adopt this system, where

by a Provincial Officer is appointed to a municipality as its Police Officer, working for the Village and yet under the control of the O.P.P.

It was the attitude of Inspector Airey, that this system might soon become Province-wide, and would make for the ideal system of policing the Province and all its individual municipalities in a more thorough manner.

During the hour-long discussion preceding the signing of the agreement, The Inspector answered questions of Council, one of which was asked by Councillor Banks, who asked if the O.P.P. would change officers, to which Airey replied, that although the Commissioner had the power to do so, it was hardly probable under the circumstances outlined in this particular appointment.

Also up for discussion was the proposed fire hall, which Council have been debating for some time. In this regard, the Inspector urged Council to consider strongly the advisability of including in the plans for this building a police office and cell accommodation. "This is most essential," stated Inspector Airey.

The agreement will be forwarded to Commissioner Stringer for his approval and signature. The Village will pay an annual salary of \$1750 for this service, and the O.P.P. make up the balance of this salary. The agreement is on a one year basis.

The petition from the residents of Crescent avenue has been received and will be 100% strong. This petition signed for the purpose of obtaining storm sewers on Crescent

avenue, which has become one of the more choice building locations in town, now gives Council the green light on this project, and when the engineer's report is received, plans will get under way to commence work on this much needed work.

The final matter to come before Council was the Fire Hall. As it stands now, there is a strong possibility that besides a fire hall, the building will be built for the purpose of maintaining a police office and cell accommodation, recreation room on the main floor for the firemen, and a hall with kitchen facilities on the second floor.

This is of course merely supposition and nothing definite can be said about final plans for this Hall. Council discussed at some length various features of the building, including heating system, type of material to be used, and many other features. It is apparent that the type of building that Council now have in mind, will surpass considerably the first version of a fire hall. The cost will be much higher than previously anticipated, but it now appears that the building, if and when it is completed, either by this Council or future Council's, will be a great asset to the Village and will serve not only the fire department, but the police and the various organizations that are the life blood of any municipality.

Mountain Street will be the site, and as Council adjourned it was decided to request the aid of Major R. G. Saunders in preparing a rough sketch of the proposed building. The May session of Council should see the Fire Hall become a certainty.

A husband is an animal who tries to read the paper and carry on a conversation with his wife at the same time.

## New Constable

At a special session of Council Tuesday night, Council engaged from the Ontario Provincial Police, the services of Provincial Constable W. A. Bayes.

With eighteen years experience with the force, plus two years with the Royal Canadian Mounted Police, P.C. Bayes is a vet of the last war, and a highly trained and qualified man to take the position.

P.C. Bayes will commence his duties on May 1st, and will take up residence in the apartment vacated by ex-Chief Manley. He is married with no children. He has been stationed at Windsor.

## Food Shower Was A Big Success

The "Food Shower" sponsored in this district by the Lena Davis Chapter I.O.O.F. came to a very successful conclusion on Sunday.

Although no accurate count is available of food-stuffs brought in by residents of Beamsville, Clinton and surrounding territory the response was most gratifying.

The food gathered in this drive is for nursery schools in the United Kingdom, where the need is great for a few of the essentials of ordinary living. The I.O.O.F. on behalf of Mrs. Atkin, whose efforts made this drive for food possible, wish to thank the many persons who helped make the venture the success that it was.

## Hold Meeting For Nursing Order

The Victorian Order of Nurses whose services are Dominion-wide, through one hundred branches are making an effort to give the residents of Lincoln County the benefits of their valued service.

The V.O.N., which resulted from a bequest of a considerable sum of money left by an Englishman, was founded in England and has spread to Canada, where it has been growing since its induction.

The purpose of the V.O.N. is to supply trained nurses to persons in ill health, but not hospitalized, with a daily service while they are ill, at a rate of one dollar per call. The system which is now in effect in Merritt and Thorold has proved to be very successful, and efforts to interest the citizens of Lincoln will be made on May 21st, when a public meeting has been called, to be held in the Community Hall, Beamsville, at 8.30 p.m.

Miss Ferguson of Toronto and Miss Smellie, Ontario Superintendent, will be present to outline the advantages of the V.O.N.

## Obituary

**MRS. ANNIE OFFORD**  
Following a brief illness at the Hamilton General Hospital, Mrs. Annie Offord, beloved wife of Gilbert P. Offord, passed away on Tuesday afternoon. Deceased was in her 40th year.

Widely known throughout the district deceased came to Beamsville when she was five years of age. Born in Essex, England, she resided in Beamsville until her marriage about five years ago, when she took up residence in St. Catharines.

She was a valued member of the United Church, and was active in the Ladies' Association. She also took much delight in her hobby of lawn bowling, and was a member of the Beamsville Club.

She is survived by her husband, and one son, Douglas. Also her parents, Mr. and Mrs. Charles Good of Mountain Street.

Funeral services will be held on Friday from her parents' home, with service at 2.30 p.m. Interment will be made in Mount Osborne Cemetery.

No, hum! Operating expense is something a patient needs when dealing with a surgeon.

A college degree is something conferred on a famous man to help the college.

A pessimist is the man who thinks it should be easy to earn an honest living as the field isn't over-crowded.

# Which One Is YOURS

THE COW  
WITH THE  
CRUMPLED  
HORN

THE CAR  
WITH THE  
CRUMPLED  
FENDER

If you own the cow, while she may be the pride of your prize winning herd, there is not much that we can do about her crumpled up horns.

## BUT

If you own a car with one, two, three, four crumpled up fenders, then we are just the people to straighten them out and make them look like new.

Our body and fender man is an expert at this work. He can iron out a fender until it looks perfect; take dents and bulges out of a body and true up your doors until you drive away thinking you have just received a new car from the factory.

## UNSKILLED, CARELESS DRIVER WORLD'S BIGGEST HEADACHE

"Nine out of every 10 pedestrians killed in traffic accidents have never driven a car," according to Prof. Amos E. Neyhart, America's top authority on driving and driving hazards. He is in Toronto this week to conduct the second Canadian Motor Vehicle Fleet Supervisors' training course—April 23 to 26—in the Mining Building of the University of Toronto.

The course, with emphasis on testing, selecting, training and supervising of fleet personnel, is sponsored, as was the case last year, by the Extension Department of the University of Toronto, the Ontario Safety League and John Labatt Limited, of London, Ont.

"The Modern Driver should remember that two-thirds of all pedestrian fatalities occur at night when there is only one-third the day-time traffic," says the administrative head of the Institute of Public Safety, Pennsylvania State College, and staff consultant for the American Automobile Association on road training. "Another fact is that two-thirds of all pedestrians killed are more than 40 years of age."

The summer is the worst because traffic then is at its peak, declares Prof. Neyhart. "We will soon be facing our biggest headache: the careless or unskilled driver. The pilot of a plane is thoroughly trained for his job; so are the locomotive engineer and the ship's captain. In the same manner there should be 'ground schools' for the modern motorist. In North America the automobile is used by more people and is involved in more accidents than all other modes of transportation combined."

"We must approach the problem in the right way. We should find out if would-be drivers are qualified to operate cars, not allow them to get into trouble and then say they shouldn't be allowed to drive. "What we should do is train those would-be drivers when they are of legal age to drive, that is, in our high schools. Those who operate taxi, bus or trucking fleets find their reservoir of drivers in high schools, and if youths are taught the technique of good driving there, all the fleet operator has to do is train them in the things directly relating to their job."

"Many people think that if a man has driven a truck for 10 years he must be twice as good as one who has driven for only five. Yet it is a proven fact that a boy who has driven for only one or two years can be a far better driver

than a man who has driven for 30." In one U.S. city not so long ago, according to Prof. Neyhart, a psychiatrist checked 267 drivers who had been picked up for traffic offences of one kind or another. "They were an average lot, not selected because of any evidence of mental disorder," he points out. "Out of the 267, the psychiatrist found that seven were definitely crazy and had to be packed away had to have psychiatric treatment in any hospital or institution. This is ample proof that any driver, regardless of how good he may be, must also be on the wheel of the other car."

When it comes to statistics, Prof. Neyhart can quote figures by the yard. According to the U.S. authority, it takes 22 feet to stop a car on dry pavement when you are travelling 15 or 16 m.p.h. But at 40 m.p.h. you require 88 feet in which to stop. It requires about 30 per cent more gasoline to average 60 m.p.h. than to average 40 m.p.h. Here are some average figures: At 30 m.p.h. a car will travel 18 miles on one gallon of gasoline; at 40 m.p.h., 16.4 miles on a gallon; at 50 m.p.h., 14.6 miles on a gallon; and at 60 m.p.h., 12.6 miles on a gallon.

And if your worry is tires, it will interest you to know that at 52 m.p.h. the tire wear is 2.7 times as great as at 33 m.p.h.

For the five-day Fleet Supervisors' training course in Toronto next week, tests have been devised to record the mental, physical and emotional characteristics of drivers. On the basis of these tests, Prof. Neyhart states, it is possible to determine whether or not a man will make a good driver and to reveal the weak spots which may be corrected.

Exercises have been prepared to measure a driver's ability to handle a car, expertly and to improve his driving skill. Each exercise is designed to bring out some significant driving practice. In addition to obtaining a measure of the degree of experience, these exercises also create an awareness on the part of those tested that skilful handling of a car is not a "clinch," but requires sound physical characteristics, driving knowledge, alertness, consideration for others and highly developed skill.

The course is aimed at the prevention of accidents, reduction of operational costs, conservation of equipment, and improvement of management, driver and customer relations on the part of firms operating motor vehicle fleets. To accomplish this purpose, the idea is to prevent, largely through demonstration, a complete program for selecting, training and maintaining fleet personnel.

### Cupid Is Given A Better Break

Cupid gets one break in the new pay scale announced to-day for Canada's peacetime armed forces. In the pre-war service there was a limit on the number of men to whom marriage allowances could be paid. This restriction has been lifted. As many soldiers, sailors or airmen who want to can get married, and they will get the marriage allowance of \$20.00 a month below the rank of officer and \$30 for officers.

The marriage age for the peacetime armed services has been set at 23 for those below the rank of officer and at 25 for officers. They can marry younger than that, but if they do they won't get the marriage allowance until they reach the required age.

Before they can get their marriage allowance, men also must have "completed the initial training period appropriate to their service," before they can draw more money for their married status.

Neither of these restrictions as to any or initial training apply to

### REAL ESTATE

Through the office of Winifred Congdon, Realtor, a 50 acre Fruit and grain farm, located on No. 20 Highway, has just been sold to Robert Greenwood of Toronto.

persons who have had active service during the war.

But in one respect Cupid loses, as compared to wartime pay provisions, though not as against pre-war regulations. No dependants' allowance will be paid for children. The carriage allowance covers the whole extra sum to a married man.

**Hasty Stew**  
1 1/2 cups dried potatoes  
1 cup dried carrots  
2 cups boiling water  
1 small onion  
Cook in a little fat for 10 minutes, add potatoes and carrots, cook in 1 1/2 cups water, add boiling water. Cook 10 minutes. Thicken with 1/2 cup flour mixed with cold water. Cook 5 minutes longer.

**Serve with "SALADA" TEA**

### Cold Comfort

After two years' intensive research, doctors in America have announced the following remarkable discoveries about the common cold:—  
Women catch them more easily than men.

Between the ages of 20 and 29 is the most vulnerable period. Over 50 is the safest period. More colds start on Monday than any other day. One thing about colds the doctors failed to discover—how to cure them!
